

A comfortable ergonomic viewing position for computer monitors is essential for preventing eye and neck strain. LiftTEC® Arms move smoothly and stay in place with one-handed operation, providing easy adjustments for a perfect personal fit.

The LiftTEC® Arm I is a two-part die cast aluminum monitor arm with a reach of 14.37" and a maximum height of 11" above the desk surface. Available in two capacities, the Arm I can hold a monitor weighing up to 18 or 33 lbs. Gas-Spring Technology makes it easy to position the monitor with one hand and keep it in place.

The entire arm can be rotated 360° around its table mount for easily sharing your view. It provides a clean, modern style to suit any work environment.

3-in-1 table mount options are included with the Arm I - Drilling Screw, Grommet, and System Clamp. Models are also available for TSS column mount, SlatWall mount, or a Wall Mount.

The Arm I is equipped with a QuickRelease mount – simply click the monitor in place and tilt it to the perfect viewing angle. Cable clips are included to maintain a neat, organized appearance.

Item Number	Base Option	Capacity	Range
930+1089+000	System Clamp / Grommet / Drilling Screw	18 lbs	14.37"
930+1159+000	System Clamp / Grommet / Drilling Screw	33 lbs	14.37"
980+1089+000	TSS Column Mount	18 lbs	15.63"
980+1159+000	TSS Column Mount	33 lbs	15.63"
981+1089+000	SlatWall	18 lbs	15.75"
931+1089+000	Wall Mount	18 lbs	15.75"

FEATURES

- Adjustability: tilt/turn angle, height, range, rotation
- Range: 14.37" up to 15.75"
- Carrying capacity: up to 18 or 33 lbs
- Maximum height of monitor arm from desk surface: 11"
- Pivot: 360 degree pivot on table mounts; 180 degree on column, slat, or wall mounts
- Gas Spring Technology piston for smooth, easy positioning
- Die cast aluminum construction for superior strength
- German engineered for quality
- Mounting standard: VESA 75/100
